

Contents

1. Static Electricity	
A. Introduction	...1
B. Grounding	...4
C. Charge Density*	...4
2. Conductance, Insulators and Resistance	...8
3. Ohm's Law	...13
4. Series Circuits	...16
5. Parallel Circuits	...21
6. Combination Circuits *	...30
7. Energy and Power	
A. Energy	... 37
B. Joule	... 37
C. Power	... 37
D. Power, Voltage, Current and Resistance	... 38
E. Relating Energy to Power	... 40
F. Energy and Cost (Hydro Bill)	... 44
8. Specific Heat Capacity	
A. $Q = mc\Delta T$... 49
Mixing Problems*	...51
B. $VIt = mc\Delta T$ *	... 54
9. Magnetism	
A. What is a Magnet?	...57
B. Type of Materials	...57
C. Domains	...58
D. Magnetic Field Lines	...59
E. Current- Induced Magnetic Fields	...62
F. Solenoids	...63
G. Factors Affecting Electromagnets	...64
H. Earth's Magnetic Field	...65
