

**p 150**

1. The track on the window
2. The forks
3. The threaded hole for the screw to go through
4.
  - a) track
  - b) forks
  - c) threaded hole
5. See the test for the diagram
  - a) indirect; it's held by screws
  - b) yes screws are removable
  - c) no (the rubber is flexible but it's not the link; the screw is)
  - d) Complete. The rubber or the top part cannot move independently of the other
  - e) partial
  - f) You can lift the top part to put staples in; the base will stay put.
